## Community Engagement and Participation

BotR is committed to community engagement. From March 2025, it participated in two community events, hosting stalls to promote the programme. Participants and graduates volunteered, managing the stalls and sharing their recovery stories, as well as showcasing the vintage bus restorations and other projects.

Glasgow Vintage Vehicle Trust Family and Community Day 2025

South Community Recovery Network ROSC event

BotR also delivered a presentation at the Scottish Recovery Consortium LERO meeting, led by two graduates. The presentation covered the programme's introduction, demonstrations, and a workshop overview.

BotR's garage has hosted visits for a wide range of community groups and organisations, including Mouldsdale Foundation, Move On, The Wise Group, and Way Ahead.

We always welcome a chance to collaborate with other organisations. Get in touch for more information!

## Latest BotR Annual Report Now Available

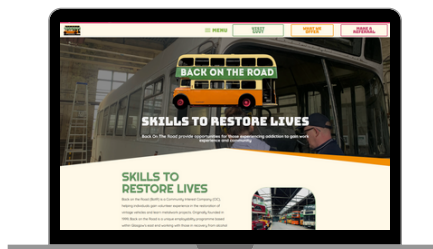

BotR's Annual Reports are now available on the website.

## Community Achievement Award

BotR has relaunched the Community Achievement Award Level 4-5, collaborating with Glasgow Life for participants under 25. The qualifications are equivalent to National 4 and 5, which improve participants' employability.

**GlasgowLife**

The completion of the award will enable participants to receive official certificates from Glasgow Life, subject to approval from Glasgow Kelvin College. They will be guaranteed interview opportunities for course applications.

## Continued Growth and Support

In May 2025, BotR welcomed The Rotary Club of Glasgow to Bridgeton for a tour around the garage and a trip out on one of the buses restored by the programme. It was also an opportunity for the Rotary Club to pass over the money raised from their fundraising for BotR earlier in the year. Vince, Ken and Martin from BotR were on hand to gratefully receive the cheque from Jonathan Wright of the Rotary Club. We would like to thank the Rotary Club again for this very welcome boost of funds.
