Community Engagement and Participation

BotR is committed to community engagement. From March 2026, it participated in three community events, hosting stalls to promote the programme. Participants and graduates volunteered, managing the stalls and sharing their recovery stories, as well as showcasing the vintage bus restorations and other projects.

Continued Growth and Support

In April 2026, BotR was successfully awarded a grant by the National Lottery Community Fund. This award serves as a strong endorsement of BotR's work and provides vital support for our participants and volunteers. The team is delighted to accept this funding.
